

Zahra Mohammadinejad

Senior Business Analyst | Business Process Analyst | Digital Transformation Consultant

Phone number: +989131575605 **Email:** bzmn65@gmail.com **LinkedIn:** <https://www.linkedin.com/in/Zahra-Mohammadinejad>

ABOUT ME

Senior Business Analyst with over 10 years' experience in business process analysis, requirements engineering and digital transformation in engineering, construction, legal and software industries. An expert at end-to-end process analysis, bottleneck detection and BPMN 2.0 process modeling.

Established as an effective mediator between business and IT stakeholders during all project phases – from the discovery to post-implementation optimization stages. Currently deepening my knowledge in process automation with AI and using LLMs for workflows.

WORK EXPERIENCE

Business Analyst

RAHA Software Company | Yazd, Iran (Dec 2016 – Present)

- Minimized rework in process development by 20% through discovery interviews with 15+ stakeholders per project, understanding business requirements, and determining process scope before implementation.
- Improved complicated business processes in engineering, construction, and legal organizations through the analysis of end-to-end process flows, identification of bottlenecks, dependencies, subprocesses, and possibilities for automation, and design of new TO-BE processes.
- Helped software development teams implement complex processes through standard process documentation and BPMN 2.0 models, including process scope, roles, input/output, business rules, dependencies, and automation levels.
- Improved alignment between business requirements and implementation through direct work with development teams, analysis of process gaps, and redesign of processes post-implementation.
- Supported process digitization and selection of solutions through transformation of analysis results into functional requirements and assistance in evaluation of BPM software and implementation vendors.
- **Selected Tools:** BPMN 2.0 • Visio • Visual Paradigm • Jira • Figma • ProcessMaker • SQL (Conceptual)

System Analyst

Erfan Samaneh Software Company | Yazd, Iran (May 2013 – Mar 2014)

- Successfully implemented two enterprise portals and intranets through analysis of the workflow and requirements gathering.
- Aligned requirements with the solution through direct involvement with the development team while implementing SharePoint, thus clarifying the requirements and filling the gaps in the implementation.
- Facilitated database design decisions by translating business and process requirements to data requirements and cooperating with the technical team in the solution design.
- **Key Tools:** Visio, SQL, SharePoint

AI & AUTOMATION

AI-enabled Business Process Automation – R&D

- Exploring practical applications of LLMs and workflow automation for business process optimization
- Building AI-assisted workflow prototypes using n8n and researching intelligent decision-support use cases
- **Technologies:** n8n • LLMs • Prompt Engineering • LangChain • LangGraph • MCP • AI-assisted Prototyping

CORE COMPETENCIES

Business & Process Analysis:

Business Process Analysis · Process Discovery · AS-IS / TO-BE Analysis · Process Mapping · Process Improvement · Process Reengineering · Process Diagnostics · Bottleneck Analysis · Gap Analysis · Root Cause Analysis · Workflow Analysis

Requirements & Solution Analysis:

Requirements Elicitation · Requirements Analysis · Functional Requirements · Business Requirements Documentation · Business Rules · Process Specifications · Solution Validation · Stakeholder Management · Business–Technology Alignment

Process Modeling & Transformation:

BPMN 2.0 · Process Architecture · Digital Transformation · Workflow Automation · Process Digitization · Automation Assessment

Education

Master in Software Engineering | Islamic Azad University, Yazd, Iran (2014-2016)

Bachelor in Software Engineering | Islamic Azad University, Yazd, Iran (2010-2012)

Associate of Computer Science | Islamic Azad University, Taft Branch, Iran (2006-2008)

Languages

- Persian (Native)
- English (Advanced)
- German (Beginner)
